WINERIES

Performances on slopes

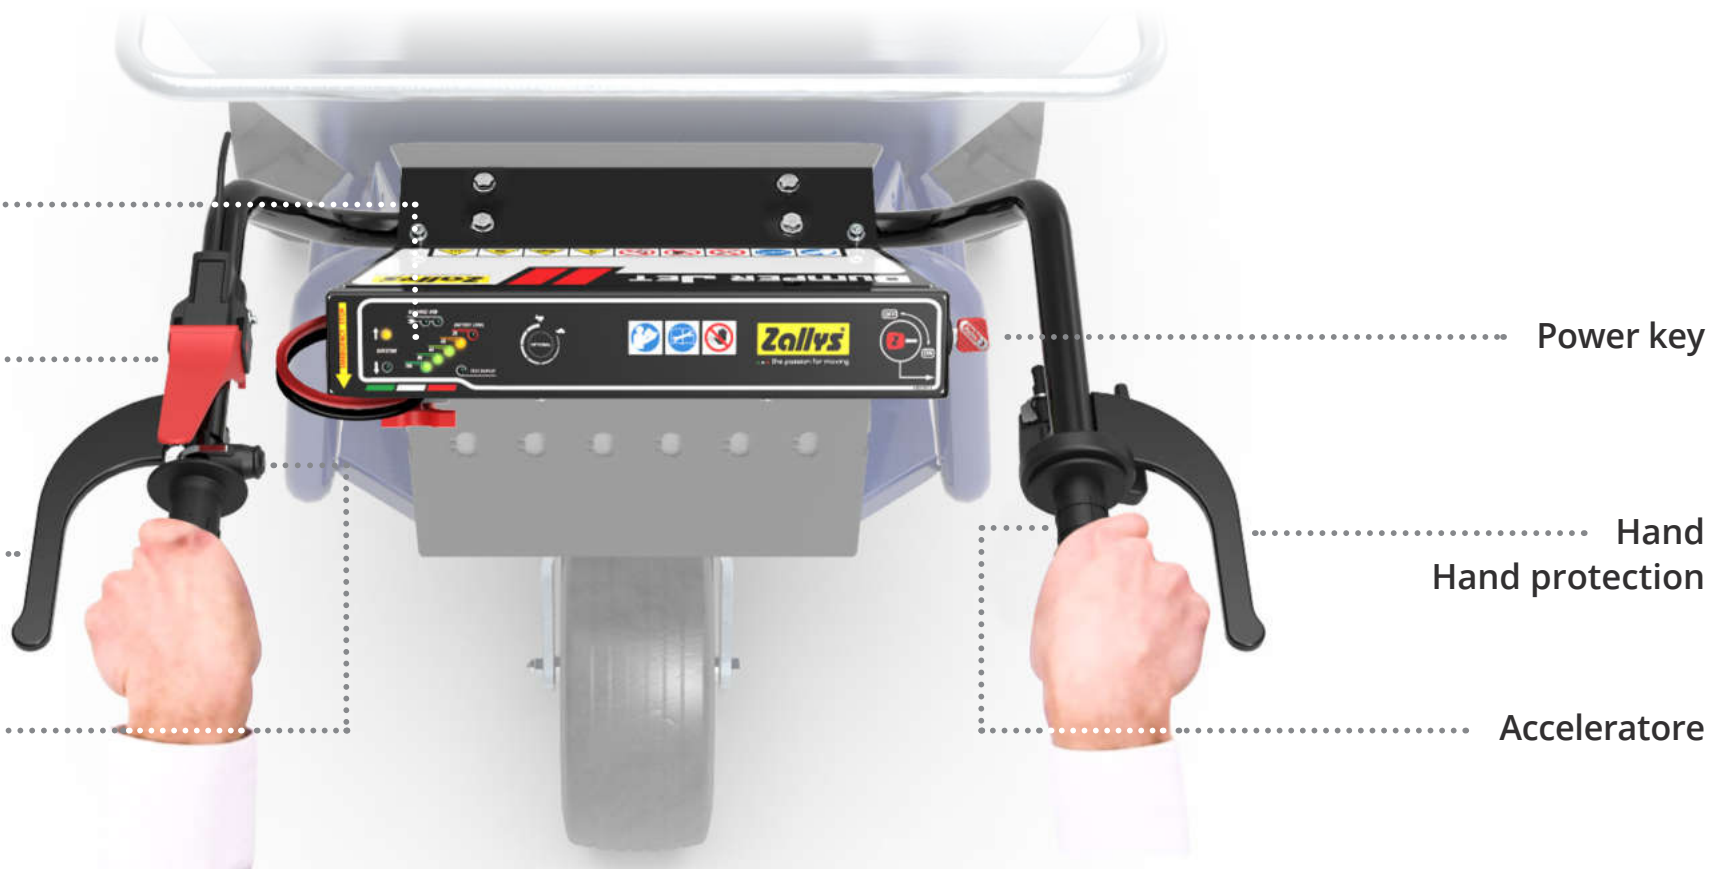

D1 can overcome slopes up to 30%, but the load it can carry **may vary based on:**

- **terrain** on which the load is carried;
- **slope** level;
- **wheels**.

Ergonomic driving

DUMPER-JET's driving system is designed to make the use of the machine more ergonomic for the operator, guaranteeing **great comfort on a prolonged use** during the work shift. **All the controls are at your fingertips**, and on the LED display are always visible the battery charge level and the direction; the power key is on the right side for a fast and easy ignition. **The structure** is made of **resistant materials** in case of accidental bumps.

ACCESSORIES

Skips for every need

DUMPER-JET has a wide range of **different sized skips** to fulfill every transport need. Moreover, it's possible to equip the skip with a **fitting kit** to lift the machine, for example with a crane.

The right wheels for every need

DUMPER-JET is equipped by default with **pneumatic tractor wheels**, suitable mostly for an outdoor use, ideal on muddy and uneven terrain to always guarantee the maximum grip and a low level of vibrations. Moreover, they're very resistant and offer exceptional performances on any type of ground. On request, it is possible to equip other kinds of wheels, like the turf tires for both indoor and outdoor use.

Autonomy for a full working day

DUMPER-JET is powered by two 105/130 Ah batteries, which guarantee the machine for **8 continuative working hours operation**. Thanks to the high frequency external battery charger, the batteries are easy to charge.
